

JASON WARD

Short Bio

Jason has worked in the IT Industry for more than 25 years. He started his career at IBM in the Finance and Controlling area, before moving in to Business Management roles. These roles required him to work in South Africa, France and more recently Germany.

For the last 3 years he has been responsible for Global Delivery and International Business Development at T-Systems MMS GmbH.

Over his career he has worked across 4 continents involved in developing and implementing global projects.

He holds a Dipl. Company Administration, from the University of Johannesburg, and a Global Executive MBA from HHL/EADA.

He is an ardent Rugby fan, however more in a spectator role and in his free time is a practicing Intermediate Life Support Paramedic.

Presentation Highlights

Title: Thinking Locally acting Globally

Digitalization and connectivity are at the heart of customer challenges, new business models and new delivery models.

DevOps is not just automation it is a mindset.

Business Processes are enabled by the underlying IT and everything as a Service.
